FORM 2
MCH BUDGET DETAILS FOR FY 2005

[Secs. 504 (d) and 505(a)(3)(4)]

STATE: LA

1. FEDERAL ALLOCATION

(Item 15a of the Application Face Sheet [SF 424])
Of the Federal Allocation (1 above), the amount earmarked for:

\$ 14,293,453

A. Preventive and primary care for children:

\$ 6,556,584 (45.87%)

B. Children with special health care needs:

\$ 5,263,508 (36.82%)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C. Title V administrative costs:

\$ 1,429,345 (10%)

(The above figure cannot be more than 10%) [Sec. 504(d)]

2. UNOBLIGATED BALANCE (Item 15b of SF 424)

\$ 2,191,723

3. STATE MCH FUNDS (Item 15c of the SF 424)

\$ 22,542,122

4. LOCAL MCH FUNDS (Item 15d of SF 424)

\$ 745,605

5. OTHER FUNDS (Item 15e of SF 424)

\$ 0

6. PROGRAM INCOME (Item 15f of SF 424)

\$ 5,439,100

7. TOTAL STATE MATCH (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 6,207,276

\$ 28,726,827

8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 45,212,003

9. OTHER FEDERAL FUNDS

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 0

b. SSDI: \$ 100,000

c. CISS: \$ 50,000

d. Abstinence Education: \$ 0

e. Healthy Start: \$ 0

f. EMSC: \$ 0

g. WIC: \$ 0

h. AIDS: \$ 0

i. CDC: \$ 0

j. Education: \$ 0

k. Other: \$ 0

Early Childhood \$ 100,000

PRAMS \$ 132,000

10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)

\$ 382,000

11. STATE MCH BUDGET TOTAL

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 45,594,003

FORM NOTES FOR FORM 2

None

FIELD LEVEL NOTES

1. **Section Number:** Main

Field Name: UnobligatedBalance

Row Name: Unobligated Balance

Column Name:

Year: 2005

Field Note:

The Louisiana MCH Program reports a zero unobligated balance. The assumption used is that the MCH Block Grant has a two year period for expenditures. The funds are completely spent by the end of the two year period and there is no unobligated balance.

(STATE MCH BUDGET TOTAL)						

FORM NOTES FOR FORM 3

FY 2003 Budget figures were obtained from the January 2002 projection which was the latest revenue projection available. By the end of 2002, Medicaid revenue dropped significantly. This drop was due in part to the full implementation of "Community Care" during 2002-2003. Community Care is a Medicaid managed care program. Medicaid clients are sent to private physicians for primary care. Services given at the public health clinics are not reimbursed unless authorized by the private primary care physician. Getting authorization for service has been problematic. As Program income revenue decreased, MCH increased its expenditure of Federal and Local MCH Funds to cover costs.

FORM NOTES FOR FORM 5

FY 2003 Budget figures were obtained from the January 2002 projection which was the latest revenue projection available. By the end of 2002, Medicaid revenue dropped significantly. This drop was due in part to the full implementation of "Community Care" during 2002-2003. Community Care is a Medicaid managed care program.

In 2003, Expenditures on Direct Services decreased as did expenditures Infrastructure Building services. Enabling Services continued to increase. With the institution of Medicaid's Community care in 2002-2003, clients are moving to private providers for maternal and well child care. Enabling Services increased due to the shift to and expansion of the Nurse Family Partnership home visiting program for pregnant women and children.

FORM 6

NUMBER AND PERCENTAGE OF NEWBORNS AND OTHERS SCREENED, CASES CONFIRMED, AND TREATED

Sect. 506(a)(2)(B)(iii)

STATE: LA

Total Births by Occurrence: 64,689

Reporting Year: 2003

Type of Screening Tests	(A) Receiving at least one Screen (1)		(B) No. of Presumptive Positive Screens	(C) No. Confirmed Cases (2)	(D) Needing Treatment that Received Treatment(3)	
	No.	%			No.	%
Phenylketonuria	64,689	100	25	3	3	100
Congenital Hypothyroidism	64,689	100	392	41	41	100
Galactosemia	56,689	87.6	140	0	0	
Sickle Cell Disease	64,689	100	79	79	73	92.4

Other Screening (Specify)

Biotinidase Deficiency	64,689	100	66	3	3	100
------------------------	--------	-----	----	---	---	-----

Screening Programs for Older Children & Women (Specify Tests by name)

(1) Use occurrent births as denominator.
 (2) Report only those from resident births.
 (3) Use number of confirmed cases as denominator.

FORM NOTES FOR FORM 6

None

FIELD LEVEL NOTES

1. **Section Number:** Main
Field Name: BirthOccurence
Row Name: Total Births By Occurrence
Column Name: Total Births By Occurrence
Year: 2005
Field Note:
Data is based on the numbers of tests performed by the State and private laboratories for calendar year 2003 compared with 2003 births by occurrence.

2. **Section Number:** Main
Field Name: Galactosemia_OneScreenNo
Row Name: Galactosemia
Column Name: Receiving at least one screen
Year: 2005
Field Note:
Although the State Central Lab and the out-of-state lab began testing all specimens received for galactosemia by spring of 2002, the in-state private lab waited until the rule adding galactosemia to the battery was passed (August 20, 2003).

3. **Section Number:** Main
Field Name: SickleCellDisease_Confirmed
Row Name: SickleCellDisease
Column Name: Confirmed Cases
Year: 2005
Field Note:
The number of sickle cell confirmed cases and the number of presumptive positives are the same because of the state's use of a two- tiered testing system consisting of HPLC and isoelectric focusing allows for very accurate diagnosing of sickle disease phenotypes. All such patients are immediately referred into specialized care.

FORM 7
NUMBER OF INDIVIDUALS SERVED (UNDUPLICATED) UNDER TITLE V
(BY CLASS OF INDIVIDUALS AND PERCENT OF HEALTH COVERAGE)

Year: 2005
Field Note:
Infants: FY 2003 estimates are based on information obtained from the Genetics Newborn Screening Program and is an estimate based on source of payment.
- 6. Section Number:** Main
Field Name: Children_1_22_TS
Row Name: Children 1 to 22 years of age
Column Name: Title V Total Served
Year: 2005
Field Note:
This year includes the count of individuals served from the Adolescent School Based Health initiative, in SFY 2002-03 = 28,384, plus individuals served in the parish health units.
- 7. Section Number:** Main
Field Name: Children_1_22_XIX
Row Name: Children 1 to 22 years of age
Column Name: Title XIX %
Year: 2005
Field Note:
PH-9 (COGNOS) shows 51.3% are paid by Medicaid; Adolescent School Based Health shows 50% of 28,384 served paid by Medicaid.
- 8. Section Number:** Main
Field Name: Children_1_22_XXI
Row Name: Children 1 to 22 years of age
Column Name: Title XXI %
Year: 2005
Field Note:
Count of Unduplicated LACHIP recipients receiving services from OPH = 5305. From Medicaid, October 2002 - September 2003. May include some infants as age was not given.
- 9. Section Number:** Main
Field Name: AllOthers_TS
Row Name: Others
Column Name: Title V Total Served
Year: 2005
Field Note:
Due to the record keeping system's inability to decipher between pregnant women and non-pregnant women seeking pregnancy tests in the public health units, all women of reproductive age that are served in the health units are reported under pregnant women.

FORM 8
DELIVERIES AND INFANTS SERVED BY TITLE V AND ENTITLED TO BENEFITS UNDER TITLE
XIX

Year: 2005
Field Note:
 Asian includes Native Hawaiian or Other Pacific Islander in state database.
3. **Section Number:** I. Unduplicated Count By Race
Field Name: DeliveriesTitleXIX_RaceOther
Row Name: Eligible for Title XIX
Column Name: Other and Unknown
Year: 2005
Field Note:
 Other and Unknown includes Hispanic (356), Latino and more than one Race (29), Unknown (1492), Invalid (302),
4. **Section Number:** I. Unduplicated Count By Race
Field Name: InfantsTitleV_All
Row Name: Title V Served
Column Name: Total All Races
Year: 2005
Field Note:
 The reason that the number of deliveries is higher than the number of infants in the state is because total deliveries in the State is by occurrence and therefore, includes deliveries of both Louisiana residents and nonresidents. Total infants in the State is by residence. Infants served by the Title V Program represent the number of infants receiving newborn screening services and therefore the number of infants served by Title V is greater than the number of infants in the State. The racial breakdown of infants served is the same as the breakdown for all live births in the State. Source: Louisiana Vital Statistics, Total Deliveries in State (Births by Occurrence-2002)
5. **Section Number:** I. Unduplicated Count By Race
Field Name: InfantsTitleV_Hawaiian
Row Name: Title V Served
Column Name: Native Hawaiian or Other Pacific Islander
Year: 2005
Field Note:
 Asian includes Native Hawaiian or Other Pacific Islander in state database.
6. **Section Number:** I. Unduplicated Count By Race
Field Name: InfantsTitleXIX_White
Row Name: Eligible for Title XIX
Column Name: White
Year: 2005
Field Note:
 Medicaid eligible infants - This number is based on the October 2002 - September 2003 HCFA 416 report, which includes eligibles under Titles XIX and XXI. The 559 infants eligible under Title XXI were removed from the total. Race breakdown data is not available. Thus the total for all races was placed in the other/unknown box for input. Medicaid defines "eligible" infants as the number of infants enrolled in the Medicaid program.
7. **Section Number:** II. Unduplicated Count by Ethnicity
Field Name: DeliveriesTitleV_TotalHispanic
Row Name: Title V Served
Column Name: Total Hispanic or Latino
Year: 2005
Field Note:
 Louisiana's PH-9 form (COGNOS database) does not include any further breakdown by ethnicity.
8. **Section Number:** II. Unduplicated Count by Ethnicity
Field Name: DeliveriesTitleXIX_TotalHispanic
Row Name: Eligible for Title XIX
Column Name: Total Hispanic or Latino
Year: 2005
Field Note:
 Hispanic (356) plus Latino and more than one race (29). Medicaid offers no further breakdown by Hispanic or Latino countries or area of origin.
9. **Section Number:** II. Unduplicated Count by Ethnicity
Field Name: InfantsTitleV_TotalHispanic
Row Name: Title V Served
Column Name: Total Hispanic or Latino
Year: 2005
Field Note:
 Louisiana's PH-9 form (COGNOS database) does not include any further breakdown by ethnicity.
10. **Section Number:** II. Unduplicated Count by Ethnicity
Field Name: InfantsTitleXIX_TotalNotHispanic
Row Name: Eligible for Title XIX
Column Name: Total Not Hispanic or Latino
Year: 2005
Field Note:
 Medicaid eligible infants - This number is based on the October 2002 - September 2003 HCFA 416 report, which includes eligibles under Titles XIX and XXI. Ethnic breakdown data is not available. Medicaid defines "eligible" infants as the number of infants enrolled in the Medicaid program.

TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
STATE PROFILE FOR FY 2005
[SEC. 506(A)(1)]
STATE: LA

1. State MCH Administration:
(max 2500 characters)

Louisiana's Title V program is administered by the State Sections of Maternal and Child Health and Children's Special Health Services. These programs are housed within the Office of Public Health's Center for Preventive Health. The Office of Public Health is one of the five major agencies within the Louisiana Department of Health and Hospitals. The MCH program serves a large portion of the State's large medically indigent MCH population, providing personal health services and local public health functions at parish health units distributed throughout the State. In addition to direct service provision, MCH is involved in enabling, population-based, and infrastructure building services such as outreach, case management, screening, public education, policy development, and provider training. CSHS has nine regional offices which serve as clinic sites.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ <u>14,293,453</u>
3. Unobligated balance (Line 2, Form 2)	\$ <u>2,191,723</u>
4. State Funds (Line 3, Form 2)	\$ <u>22,542,122</u>
5. Local MCH Funds (Line 4, Form 2)	\$ <u>745,605</u>
6. Other Funds (Line 5, Form 2)	\$ <u>0</u>
7. Program Income (Line 6, Form 2)	\$ <u>5,439,100</u>
8. Total Federal-State Partnership (Line 8, Form 2)	\$ <u>45,212,003</u>

9. Most significant providers receiving MCH funds:

Parish Health Units, Louisiana State University
Health Services Center, Primary Care Centers, New
Orleans Health Dept., Tulane Univ. Health Sciences
Center, Children's Hospital-New Orleans

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	<u>44,486</u>
b. Infants < 1 year old	<u>65,249</u>
c. Children 1 to 22 years old	<u>74,674</u>
d. CSHCN	<u>5,711</u>
e. Others	<u> </u>

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:
(max 2500 characters)

Parish Health Units: MCH provides prenatal care services and comprehensive preventive child health services at 70 parish health units and contract agency sites statewide. School-Based Health Centers: MCH's Adolescent School Health Initiative funds and provides technical assistance to school-based health centers at 51 locations statewide. Home Visitation: MCH funds 4 home visiting programs that utilize paraprofessional home visitors, and operates a nurse home visitation program for first-time mothers, entitled Nurse Family Partnership (NFP) in all NFP regions of the state. Children with Special Health Care Needs: CSHS provides direct medical evaluation and treatment services for chronic and disabling medical conditions in children. Parent support and care coordination services are also provided by CSHS.

b. Population-Based Services:
(max 2500 characters)

Sudden Infant Death Syndrome (SIDS) Program: MCH operates a risk reduction campaign, and provides public and professional education, grief counseling and autopsy and death scene investigation. Partners For Healthy Babies: MCH operates a statewide multimedia campaign which utilizes a toll free hotline to link callers with prenatal care, and educates about healthy behaviors during pregnancy. Newborn Screening Programs: The Genetics and Newborn Screening Program assures the screening of all newborns in the State. The Hearing, Speech, and Vision Program coordinates newborn hearing screening statewide. Injury Prevention: MCH funds a state SafeKids Program and regional injury prevention coordinators to inform the public of injury prevention approaches.

c. Infrastructure Building Services:
(max 2500 characters)

PANDA Program: The MCH Oral Health Program has initiated the PANDA Program, providing training and materials to assist dentists and dental hygienists in recognizing child abuse and neglect and encouraging them to report suspected cases. MCH Epidemiology Program: MCH operates the Pregnancy Risk Assessment and Monitoring System (PRAMS). Birth and infant death data are analyzed and includes linkages with Medicaid and Newborn Screening programs. Medical Home Project: The CSHS program has initiated a medical home project to increase primary care access to CSHCN. Birth Defects Registry: CSHS has taken leadership in developing a birth defects registry for Louisiana. Legislation was passed in May 2001, creating a Birth Defects Surveillance System. MCH has initiated an infant mortality reduction initiative effort in each region with public and private partner agencies.

12. The primary Title V Program contact person:

Name Joan Wightkin, DrPH, MPH

Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

FORM NOTES FOR FORM 11

None

FIELD LEVEL NOTES

1. **Section Number:** Performance Measure #1
Field Name: PM01
Row Name:
Column Name:
Year: 2005
Field Note:
Without the match of newborn screening result data with birth records being conducted on a routine basis, numerators and annual indicators can only be an estimate. However, given the fact that all three labs started testing for the additional diseases on or before the diseases were added to the rule, the 95% level seems to be a reasonable estimate. In August of 2003, a rule was passed that specified required data fields to make matching more accurate. Routine matching is anticipated to be accomplished by summer of 2004. Data is for calendar year.
2. **Section Number:** Performance Measure #2
Field Name: PM02
Row Name:
Column Name:
Year: 2005
Field Note:
The data reported in 2002 have pre-populated the data for 2003 for this performance measure.

Year: 2005
Field Note:
Data is from the National Immunization Survey (NIS). Only total percentages are provided in the NIS tables - numerator and denominator data is not included.

The National Immunization Survey (NIS) has a sample size of about 30,000 children. However, the sample is not the entire population, and thus sample estimates and population values are likely to be different. The magnitude of the likely difference is quantified through the 95% confidence interval. For example, in 1998, the vaccination coverage estimate for 3 doses of poliovirus vaccine in Alabama was 91.4% +/- 3.2%. This means that the true coverage was probably between 88.2% and 94.6%. When comparing two estimates (e.g., between states or between years), an overlap in the confidence intervals indicates that the observed difference might be due to chance.
8. **Section Number:** Performance Measure #8
Field Name: PM08
Row Name:

CHARACTERISTICS DOCUMENTING FAMILY PARTICIPATION IN CSHCN PROGRAMS
STATE: LA

1. Family members participate on advisory committee or task forces and are offering training, mentoring, and reimbursement, when appropriate.

3

2. Financial support (financial grants, technical assistance, travel, and child care) is offered for parent activities or parent groups.

2

3. Family members are involved in the Children with Special Health Care Needs elements of the MCH Block Grant Application process.

3

4. Family members are involved in service training of CSHCN staff and providers.

3

5. Family members hired as paid staff or consultants to the State CSHCN program (a family member is hired for his or her expertise as a family member).

3

6. Family members of diverse cultures are involved in all of the above activities.

1 = Partially Met

2 = Mostly Met

3 = Completely Met

FORM NOTES FOR FORM 13

Children's Special Health Services' nine regional clinics coordinate services among the child's medical home, specialty care and other providers. Nurses and social workers act as care coordinators and collaborate with other agencies and providers on a community level to obtain comprehensive care for CSHCN. Parent liaisons in each clinic provide resources and information to families of CSHCN. The CSHS Long Range Plan has begun a collaborative statewide process to determine the most effective system of services for CSHCN in Louisiana.

FIELD LEVEL NOTES

None

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: LA FY: 2005

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. Decrease infant mortality and morbidity, preterm births, and low birth weight.
2. Decrease mortality and morbidity among adolescents.
3. Decrease intentional and unintentional injury in the MCH and CSHCN populations.
4. Increase care coordination among children with special health care needs.
5. Increase access to and utilization of comprehensive primary, preventive, and specialty care services for women of reproductive age, infants, children, adolescents, and children with special health care needs with particular emphasis.
6. Assure that all children, especially those with special health care needs, have a medical home for comprehensive primary and preventive health care, with coordination of all health and support services.
7. Assure the oral health needs of the MCH and CSHCN populations are met.
8. Address the social, emotional, and psychological needs of the MCH and CSHCN populations.
9. Assure early identification and referral of substance abuse, domestic violence, and child abuse and neglect.
10. Promote healthy and reduce risk taking behaviors of adolescents, pregnant women, and parents through pregnant women, and parents through public, professional and patient education.

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: LA

SP # 1

PERFORMANCE MEASURE:	Percent of all children and adolescents enrolled in public schools in Louisiana that have access to school-based health center services.
STATUS:	Active
GOAL	To offer access to comprehensive preventive and primary health services, including mental health services, to children and adolescents enrolled in public schools in Louisiana.
DEFINITION	<p># of children and adolescents enrolled in public schools in Louisiana that have access to school-based health center services /# of children and adolescents enrolled in Louisiana public schools</p> <p>Numerator: # of children and adolescents enrolled in public schools in Louisiana that have access to school-based health center services</p> <p>Denominator: # of children and adolescents enrolled in Louisiana public schools</p> <p>Units: 100 Text: Percent</p>
HEALTHY PEOPLE 2010 OBJECTIVE	21.2 Receipt of recommended services Increase to at least 50% the proportion of adolescents, and to at least 80% the proportion of children age 2-12, who have received, as a minimum within the appropriate interval, all of the screening and immunization services and at least one of the counseling services appropriate for their age.
DATA SOURCES AND DATA ISSUES	Adolescent School Health Initiative Annual Services Report. Louisiana Department of Education. Increasing the percent of all children and adolescents enrolled in public schools in Louisiana that have access to school-based health center services will depend on substantial financial support for school-based health centers.
SIGNIFICANCE	According to the 1996 Annie Casey Foundation Kids Count Data Book, Louisiana ranks last in the nation for the manner in which it provides health and quality care for its children. School-based health centers provide convenient access to primary and preventive care for children and adolescents who might otherwise have limited or no access to health care.

SP # 2

PERFORMANCE MEASURE:

Percent of women in need of family planning services who have received such services.

STATUS:

Active

GOAL

To increase the percent of women in need of family planning services who have received such services through publicly supported clinics.

DEFINITION

The number of women in need of family planning services who have received such services from a publicly supported clinic in a calendar year. The number of women in need of family planning services in a calendar year.

Numerator:

The number of women in need of family planning services who have received such services from a publicly supported clinic in a calendar year.

Denominator:

The number of women in need of family planning services in a calendar year.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

5.2 Unintended pregnancy

Reduce to no more than 30% the proportion of all pregnancies that are unintended.

DATA SOURCES AND DATA ISSUES

Family planning program data. The Alan Guttmacher Institute report on Contraceptive Needs and Services estimates the need for publicly funded services for women between the ages of 13 and 44 years who are sexually active, and are neither intentionally pregnant nor trying to become pregnant.

SIGNIFICANCE

In the United States, only half of pregnancies are planned at the time of conception. For some of these unplanned pregnancies, the women wanted to get pregnant later; for others, the women wanted no more children at all. About half of unplanned pregnancies are also associated with more problems for the mother and infant than planned pregnancies. Women with unplanned pregnancies cannot take advantage of preconception care, a special health care visit that helps women achieve the healthiest possible pregnancy outcome. Planning to become pregnant at a time when a woman is healthy and ready to become a parent can maximize the health and opportunities for women, children, and families, and can reduce abortions.

SP # 3

PERFORMANCE MEASURE:

Rate of children (per 1,000) under 18 who have been abused or neglected.

STATUS:

Active

GOAL

To prevent child abuse and neglect.

DEFINITION

of validated cases of child abuse and neglect to children under age 18 in LA / Total population under age 18 in LA

Numerator:

of validated cases of child abuse and neglect to children under 18 in LA

Denominator:

Total population under 18 in LA 1999

Units: 1000 **Text:** Rate

HEALTHY PEOPLE 2010 OBJECTIVE

7.4 Child abuse and neglect

Reverse to less than 25.2 per 1000 children the rising incidence of maltreatment of children younger than age 18. (Baseline 25.2 per 1000 in 1986)

DATA SOURCES AND DATA ISSUES

Numerator is from State of Louisiana, Department of Social Services, Office of Community Services. Numbers are based on Louisiana FY 98-99. Valid cases, as defined by OCS, mean that a review of the facts showed a reason to believe abuse had taken place. Denominator is from U.S. Bureau of the Census 1999 population estimates. The number of reported cases of child abuse and neglect is much higher than the validated cases. For instance, for fiscal year 1996 the numbers were 45,981 reported cases vs. 14,863 validated cases. It is difficult to project five year goals for this measure, since as awareness of child abuse and neglect is heightened, numbers of reported and validated cases may actually increase.

SIGNIFICANCE

Children who witness or are victims of violence at home display emotional and behavioral disturbance as diverse as withdrawal, low self-esteem, nightmares, self-blame, and aggression against peers, family members and/or property. A comparison of delinquent and nondelinquent youth found that a history of family violence or abuse is the most significant difference between the two groups.

SP # 4

PERFORMANCE MEASURE:

Percent of CSHS patients with case management (follow-up visits) from a nurse, social worker, or nutritionist.

STATUS:

Active

GOAL

To ensure that a coordinated continuum of appropriate services exist for the care of children with potential or actual chronic and disabling conditions and their families.

DEFINITION

Unduplicated count of CSHS patients with a follow-up visit /Unduplicated count of CSHS patients

Numerator:

Unduplicated count of CSHS patients with a follow-up visit

Denominator:

Unduplicated count of CSHS patients

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

17.2 Disability due to chronic conditions

Reduce to no more than 8% the proportion of people who experience a limitation in major activity due to chronic conditions.

DATA SOURCES AND DATA ISSUES

A new Ph-9 form collecting more accurate information on follow-up visits for CSHS patients has just been implemented in three regions, and all regions will eventually adopt the new form. In five years, it is expected that 60% of CSHS patients will have received case management services, since Louisiana's CSHS program is placing increasing emphasis on a more holistic approach. The program envisions increased case management for its children, and a shift away from simple direct medical intervention.

SIGNIFICANCE

The establishment of systems of services that reflect the principles of comprehensive, community-based, coordinated, family-centered care are essential for effectively fostering and facilitating activities to (1) reverse or slow the progress of chronic and disabling conditions among children; (2) minimize the complications and impact of chronic disabling conditions among children; (3) strengthen the ability of families to care for children with actual or potential chronic and disabling conditions; and (4) enable children with more serious conditions to remain in the home and community-based living arrangements, rather than in institutional settings.

SP # 5

PERFORMANCE MEASURE:

Percent of children (2 - 5 years old) on WIC greater than or equal to the 95th percentile for BMI-for-age.

STATUS:

Active

GOAL

To reduce the prevalence of overweight children living below 185% of poverty.

DEFINITION

The number of cases of children (2-5 years old) greater than or equal to the 95th percentile BMI-for-age on the Supplemental Food Program for Women, Infants, and Children (WIC)/The total number of cases of children (2 - 5 years old) on the Supplemental Food Program for Women, Infants, and Children (WIC)

Numerator:

The number of cases of children (2-5 years old) greater than or equal to the 95th percentile weight for BMI-for-age on the Supplementary Nutrition Program for Women, Infants, and Children

Denominator:

The total number of cases of children (2 - 5 years old) on the Supplementary Nutrition Program for Women, Infants, and Children

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

2.3 Overweight

Reduce overweight to a prevalence of no more than 20% among people aged 20 and older and no more than 15% among adolescents aged 12 through 19.

DATA SOURCES AND DATA ISSUES

Centers for Disease Control and Prevention (CDC) Pediatric Nutrition Surveillance (PEDNSS).NHANES III indicates that nationally there has been a consistent rise (from 1971 to 1991) in the prevalence of overweight children, similar to the rise in Louisiana from 1995 to 1997. Currently, the national average is 8%. Our goal is to stop the rise in Louisiana, and bring it down to today's national average.

SIGNIFICANCE

Obesity is the most common nutritional disorder in the United States; the number of overweight children in the U.S. has more than doubled in the last 10 years. Children who are overweight can have higher blood pressure and blood cholesterol levels, particularly in children genetically prone to these conditions. The greatest risk for overweight children is that they will remain overweight into adulthood. Obese children who become obese adults are at greater risk, at a younger age, for developing heart disease, diabetes, high blood pressure, high cholesterol, gallbladder disease, arthritis, and certain cancers.

SP # 6

PERFORMANCE MEASURE:

Percent of women who have had a baby who report physical abuse either during their last pregnancy or in the 12 months prior to becoming pregnant.

STATUS:

Active

GOAL

To intervene in cases of domestic violence and to prevent violence from occurring again.

DEFINITION

of women surveyed who were physically abused either during their last pregnancy or in the 12 months prior to becoming pregnant /

Numerator:

of women surveyed who were physically abused either during their last pregnancy or in the 12 months prior to becoming pregnant /

Denominator:

of women surveyed

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

7.5 Partner abuse

Reduce physical abuse directed at women by male partners to no more than 27 per 1000 couples. (Baseline 30 per 1000 couples in 1985.)

DATA SOURCES AND DATA ISSUES

Louisiana's Pregnancy Risk Assessment Monitoring System (LaPRAMS), a population based survey, is used for this measure. LaPRAMS data collection began on October 1, 1997, and an estimate was made for the 1999 block grant application using the first six months of LaPRAMS data (October 1997 - March 1998). That estimate, 5.5%, was thought to be an extreme underestimate, given the rough data that was used and anecdotal information received from LaPRAMS staff. More accurate data is available for the 2000 block grant application and the five year goal has been revised accordingly.

SIGNIFICANCE

Domestic violence results in a range of medical and psychosocial problems which are rarely identified as domestic violence, including rape, miscarriage, abortion, attempted suicide, alcohol and drug abuse, psychiatric disease, and child abuse. Abuse accounts for almost three times as many visits for health care than motor vehicle accidents. Battering is the number one cause of birth defects. Pregnancy is a risk factor for battering; up to 25% of pregnant women are abused. More than 60% of calls to 911 are due to domestic violence, and one third of these calls are placed by children. Domestic violence is repetitive in nature and 75% of identified battered women will go on to suffer repeated abuse.

SP # 7

PERFORMANCE MEASURE:

Percent of women who use substances (alcohol and tobacco) during pregnancy.

STATUS:

Active

GOAL

To reduce substance use during pregnancy.

DEFINITION

of women surveyed who report they have used cigarettes and / or alcohol during the last 3 months of their most recent pregnancy/ # of women surveyed

Numerator:

of women surveyed who report they have used cigarettes and / or alcohol during the last 3 months of their most recent pregnancy

Denominator:

of women surveyed

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

14.10 Alcohol, tobacco, and drug use during pregnancy

Increase abstinence from tobacco use by pregnant women to at least 90%, increase abstinence from alcohol by pregnant women to at least 90%, and increase abstinence from cocaine and marijuana by pregnant women to at least 90%.

DATA SOURCES AND DATA ISSUES

Initially, the data was taken from birth certificate data, which resulted in a low estimate due to the known limitations of birth certificate data. Data from LaPRAMS, Louisiana's Pregnancy Risk Assessment Monitoring System, is now used and is a more accurate data source for this measure.

SIGNIFICANCE

Substance use during pregnancy contributes significantly to the number of low birth weight babies and the infant mortality and morbidity rates in Louisiana.

SP # 9

PERFORMANCE MEASURE:

Percent of Central Office and regional epidemiologic positions filled and working on MCH/CSHS data and epidemiologic issues.

STATUS:

Active

GOAL

To develop the epidemiologic capacity of the MCH and CSHS programs.

DEFINITION

Number of Central Office and regional epidemiologic positions filled

Numerator:

Number of Central Office and regional epidemiologic positions filled

Denominator:

Total number of Central Office and regional epidemiologic positions planned

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

22.1 Surveillance and Data Systems

Develop a set of health status indicators appropriate for Federal, State and local health agencies and establish use of the set in at least 40 states.

22.2a Surveillance and Data Systems

State level data for at least two-thirds of the objectives.

DATA SOURCES AND DATA ISSUES

There are 9 Central Office epidemiology positions established, and 9 regional positions. These epidemiologists will assure that the epidemiological capacity of the MCH and CSHS Programs is enhanced, via a functioning PRAMS program, improved surveillance and data collection systems, and ongoing mortality reviews. There are other epidemiologists within the Agency who devote pieces of their time to MCH/CSHS data collection and analysis; however, only those Central Office epidemiological staff who devote 100% time to MCH/CSHS are counted here.

SIGNIFICANCE

It is important for MCH to convert its system from a direct care services program to an epidemiologic driven program, in order to maintain the program and move it into the twenty-first century.

PERFORMANCE MEASURE:

Percent of licensed day care centers with a health consultant contact.

STATUS:

Active

GOAL

To improve the health and safety of child care settings by providing support, guidance, and technical assistance to local child care providers, social service agencies, and families.

DEFINITION

The number of licensed day care centers in Louisiana with a health consultant contact /The number of licensed day care centers in Louisiana

Numerator:

The number of licensed day care centers in Louisiana with a health consultant contact

Denominator:

The number of licensed day care centers in Louisiana

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

20.8 Diarrhea among children in child care centers

Reduce infectious diarrhea by at least 25% among children in licensed child care centers.

10.14 Service and protection

Establish in 50 states either public or labor department programs that provide consultation and assistance to small businesses to implement safety and health programs for their employees.

DATA SOURCES AND DATA ISSUES

This program has just begun -- health consultants have been trained and Resource and Referral sites have been established statewide. Data for this measure was initially taken from a November, 1996, needs assessment of LA Child Care Centers. Data is now collected from communications with the health consultants themselves.

SIGNIFICANCE

Basic concepts of health and safety need to be a part of training for all child care providers. Children cared for in group settings are more likely to be exposed to communicable diseases and may be exposed to more risk for injury. These children must depend on the caregiver for proper nutrition and food served in a safe and sanitary manner. National Health and Safety Performance Standards: Guidelines for Out-of-Home Child Care Programs, developed by the American Academy of Pediatrics and the American Public Health Association, offers standards for the major health and safety issues in child care. Recommendation 55: We recommend that each community should have access to an identified child health consultant who can provide consultations and technical assistance on health issues to facilities.

SP # 11

PERFORMANCE MEASURE:

Rate of infant deaths due to Sudden Infant Death Syndrome.

STATUS:

Active

GOAL

To decrease the rate of infant deaths due to Sudden Infant Death.

DEFINITION

Number of infant deaths due to SIDS in a calendar year/ Number of live births

Numerator:

Number of infant deaths due to SIDS in a calendar year

Denominator:

Number of live births

Units: 1000 **Text:** Rate

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

SIDS Program Data, Vital Statistics Mortality Data

SIGNIFICANCE

SIDS is the number one cause of unexpected infant death. SIDS is the most common cause of death in the post-neonatal period. The U.S. SIDS rate has declined almost 50% since the initiation of the "Back to Sleep Campaign" in 1994. However, there is still significant racial disparity. Rates are much higher in lower social economic status (SES) groups across all populations.

From Louisiana Medicaid Management Information Systems, HCFA 416 , for dates of service 10/01/2002 - 09/30/2003.
5. **Section Number:** Health Systems Capacity Indicator #08
Field Name: HSC08
Row Name:
Column Name:
Year: 2005
Field Note:
The Medicaid program converted their identification numbering system and no longer indicate whether or not a child is on SSI by using part of the 13 digit Medicaid number. An estimate was obtained from Medicaid by obtaining the number of children on SSI who had obtained services from the Office of Public Health. This could be an over-estimate as OPH patients receiving immunizations or WIC would also be included in the count. Source for 2003 numerator is Medicaid, FFY 03: October 2002 - September 2003.

c) <i>Pregnant Women</i>	2003	<u>200</u>

FORM NOTES FOR FORM 18

A more reliable Medicaid data source and linkage method was used for the 2005 Block Grant. The new method linked Medicaid/Birth files by mother's SSN and was limited by the month/year of infant's DOB as the eligibility period. The new method had 2 categories (Medicaid and Non-Medicaid), which was restricted as described above. The old method had 3 categories (matched and eligible, matched and not eligible, and unmatched), where the category "matched and not eligible" was not counted as Non-Medicaid (only "Unmatched" was counted as Non-Medicaid). In addition, mothers who reported their parish of residence as "out of state" were excluded from this analysis.

FIELD LEVEL NOTES

- Section Number:** Indicator 06 - Medicaid
Field Name: Med_Children
Row Name: Medicaid Children
Column Name:
Year: 2005
Field Note:
Children ages 15-21 are eligible for certain Medicaid programs at 16% of poverty level. System would not allow poverty level under 100% to be entered.
- Section Number:** Indicator 06 - SCHIP
Field Name: SCHIP_Women
Row Name: Pregnant Women
Column Name:
Year: 2005
Field Note:
SCHIP coverage for pregnant women began in January 2003 under the LaMOMS program.
- Section Number:** Indicator 05
Field Name: InfantDeath
Row Name: Infant deaths per 1,000 live births
Column Name:
Year: 2005
Field Note:
The 2001 birth file was linked to the 2001 and 2002 infant death file in order to report infant deaths for 2001. The 2003 infant death file is not yet available, therefore infant deaths for 2002 are not reported at this time. The Medicaid linkage method was updated and was deemed more reliable for reporting year 2001.
- Section Number:** Indicator 05
Field Name: CareFirstTrimester
Row Name: Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester
Column Name:
Year: 2005
Field Note:
Data varies because data source is different. Data source for National Performance Measure 18 is state birth data. Source for HSCI 05 is Birth Data linked to Medicaid, by the mother's Social Security Number. If there is a discrepancy, the denominator would be different in the linked data.
- Section Number:** Indicator 05
Field Name: AdequateCare
Row Name: Percent of pregnant women with adequate prenatal care
Column Name:
Year: 2005
Field Note:
Data varies because data source is different. Data source for National Performance Measure 18 is state birth data. Source for HSCI 05 is Birth Data linked to Medicaid, by the mother's Social Security Number. If there is a discrepancy, the denominator would be different in the linked data.

Field Name: HSI04A
Row Name:
Column Name:
Year: 2005
Field Note:
2003 Population estimate for age 14 years and younger was calculated by adding under 5, 5-13 and 14-17 year population estimate categories. However, the 14-17 year category was divided by 4 in order to estimate those 14 years old. In addition, the 2003 population estimate for age 15-24 was calculated by adding the 18 to 24 year category to the 14-177 year category (divided by 4 and multiplied by 3).
9. **Section Number:** Health Status Indicator #04B
Field Name: HSI04B
Row Name:
Column Name:
Year: 2005
Field Note:
2003 Population estimate for age 14 years and younger was calculated by adding under 5, 5-13 and 14-17 year population estimate categories. FORM NOTES FOR FORM 21

2003 data is preliminary. In 07A, there is one WHITE birth to a woman of unknown age and one birth to a woman of unknown age 07B.

FIELD LEVEL NOTES

- 1. Section Number:** Indicator 09A
Field Name: HSIRace_SingleParentPercent
Row Name: Percent in household headed by single parent
Column Name:
Year: 2005
Field Note:
State data were calculated from the Annual Demographic Supplement (the March supplement) of the Current Population Survey from 2001, 2002, and 2003, representing information from calendar years 2000, 2001, and 2002. National Center for Children in Poverty (NCCP) averaged three years of data because of small sample sizes in less populated states. The national data were calculated from the 2003 data, representing information from calendar year 2002. Child is defined as an individual under the age of 18. No racial breakdown was given.
- 2. Section Number:** Indicator 09A
Field Name: HSIRace_TANFPercent
Row Name: Percent in TANF (Grant) families
Column Name:
Year: 2005
Field Note:
Equal to Number of children enrolled divided by Population of children in the state, as per HRSA 5/13/04. TANF (FITAP) numbers from Louisiana Department of Social Services web site (www.dss.state.la.us) State Fiscal Year Totals 2002-2003. No racial breakdown is given.
- 3. Section Number:** Indicator 09A
Field Name: HSIRace_MedicaidNo
Row Name: Number enrolled in Medicaid
Column Name:
Year: 2005
Field Note:
Source: Medicaid Data Warehouse, MMIS and HIPAA Section, MARS Unit, "Unduplicated Count of Eligibles by Race, FFY 2003 (October 2002 - September 2003)". Data covers ages 0-18. "More than one race reported" is the sum of Medicaid categories "Hispanic or Latino and one or more race" plus "More than one race (Hispanic or Latino not indicated)".
- 4. Section Number:** Indicator 09A
Field Name: HSIRace_SCHIPNo
Row Name: Number enrolled in SCHIP
Column Name:
Year: 2005
Field Note:
Source: Medicaid Data Warehouse, MMIS and HIPAA Section, MARS Unit, "Unduplicated Count of Eligibles by Race FFY 2003" (October 2002-September 2003). Data covers ages 0-18. "More than one race reported" is the sum of XXI data for "Hispanic or Latino and one or more races" plus "More than one race (Hispanic or Latino not indicated)".
- 5. Section Number:** Indicator 09A
Field Name: HSIRace_FoodStampNo
Row Name: Number enrolled in food stamp program
Column Name:
Year: 2005
Field Note:
Total for all races is from the State Department of Social Services, Office of Family Services, and reflects the number of children age 0-20 receiving Food Stamps in State Fiscal Year 2002-2003. A racial breakdown is not available.
- 6. Section Number:** Indicator 09A
Field Name: HSIRace_WICNo
Row Name: Number enrolled in WIC
Column Name:
Year: 2005
Field Note:
In FFY 2001 Grant, all persons enrolled in WIC (including women) were reported. For the FFY 2002 Grant, this method was corrected, and only the number of infants and children enrolled was used. This reflected an average of vouchers in the reporting year. FFY 2003 Grant data reported infants and children by unique identifiers (unduplicated), receiving at least one voucher in the reporting year.

FFY 2004 and 2005 Grant data was calculated according to the same method used in FFY 2002. This was found to be more accurate because the use of all unique identifiers included children later found to be ineligible or duplicates.

The data reported for Asian includes Pacific Islanders, as WIC data groups these racial groups as one.

Hispanic/Latino recipients are reported in the "Other and Unknown" category for race.
- 7. Section Number:** Indicator 09A
Field Name: HSIRace_JuvenileCrimeRate
Row Name: Rate (per 100,000) of juvenile crime arrests
Column Name:
Year: 2005
Field Note:
Data is from the National Criminal Justice Reference Service website (www.ncjrs.org). Office of Juvenile Justice and Delinquency Prevention (OJJDP) Bulletin, December 2003 -- Juvenile Arrests, 2001. Juvenile arrest rates are calculated by dividing the number of arrests of persons ages 10-17 by the number of persons ages 10-17 in the population. No racial breakdown is available.
- 8. Section Number:** Indicator 09A
Field Name: HSIRace_DropOutPercent
Row Name: Percentage of high school drop-outs (grade 9 through 12)
Column Name:
Year: 2005
Field Note:
Total for all races is from Kids Count Data Book Online 2004(www.aecf.org), Annie E. Casey Foundation. A racial breakdown is not available. Data is for 2001. Data is for ages 16-19.
- 9. Section Number:** Indicator 09B
Field Name: HSEthnicity_SingleParentPercent
Row Name: Percent in household headed by single parent
Column Name:

Year: 2005

Field Note:

State data were calculated from the Annual Demographic Supplement (the March supplement) of the Current Population Survey from 2001, 2002, and 2003, representing information from calendar years 2000, 2001, and 2002. National Center for Children in Poverty (NCCP) averaged three years of data because of small sample sizes in less populated states. Child is defined as an individual under the age of 18. The national data were calculated from the 2003 data, representing information from calendar year 2002. No racial breakdown was given.

Field Name: HSIethnicity_TANFPercent

Row Name: Percent in TANF (Grant) families

Column Name:

Year: 2005

Field Note:

TANF (FITAP) numbers from Louisiana Department of Social Services web site (www.dss.state.la.us) State Fiscal Year Totals 2002-2003. No racial breakdown is given.

11. Section Number: Indicator 09B

Field Name: HSIethnicity_MedicaidNo

Row Name: Number enrolled in Medicaid

Column Name:

Year: 2005

Field Note:

Source: Medicaid Data Warehouse, MMIS and HIPAA Section, MARS Unit, "Unduplicated Count of Eligibles by Race, FFY 2003 (October 2002 - September 2003)". Data covers ages 0-18. Hispanic/Latino is sum of "Hispanic or Latino (no other race information)" plus "Hispanic or Latino and one or more races". No appropriate category is offered for "Ethnicity not reported."

12. Section Number: Indicator 09B

Field Name: HSIethnicity_SCHIPNo

Row Name: Number enrolled in SCHIP

Column Name:

Year: 2005

Field Note:

Source: Medicaid Data Warehouse, MMIS and HIPAA Section, MARS Unit, "Unduplicated Count of Eligibles by Race, FFY 2003 (October 2002 - September 2003)". Data covers ages 0-18. Hispanic/Latino is sum of "Hispanic or Latino (no other race information)" plus "Hispanic or Latino and one or more races". No appropriate category is offered for "Ethnicity not reported."

13. Section Number: Indicator 09B

Field Name: HSIethnicity_FoodStampNo

Row Name: Number enrolled in food stamp program

Column Name:

Year: 2005

Field Note:

Total for all races is from the State Department of Social Services, Office of Family Services, and reflects the number of children age 0-20 receiving Food Stamps in State Fiscal Year 2002-2003. A racial breakdown is not available.

14. Section Number: Indicator 09B

Field Name: HSIethnicity_WICNo

Row Name: Number enrolled in WIC

Column Name:

Year: 2005

Field Note:

In FFY 2001 Grant, all persons enrolled in WIC (including women) were reported. For the FFY 2002 Grant, this method was corrected, and only the number of infants and children enrolled was used. This reflected an average of vouchers in the reporting year. FFY 2003 Grant data reported infants and children by unique identifiers (unduplicated), receiving at least one voucher in the reporting year.

FFY 2004 and 2005 Grant data was calculated according to the same method used in FFY 2002. This was found to be more accurate because the use of all unique identifiers included children later found to be ineligible or duplicates.

The data reported for Asian includes Pacific Islanders, as WIC data groups these racial groups as one.

Hispanic/Latino recipients are reported in the "Other and Unknown" category for race.

15. Section Number: Indicator 09B

Field Name: HSIethnicity_JuvenileCrimeRate

Row Name: Rate (per 100,000) of juvenile crime arrests

Column Name:

Year: 2005

Field Note:

Data is from the National Criminal Justice Reference Service website (www.ncjrs.org). Office of Juvenile Justice and Delinquency Prevention (OJJDP) Bulletin, December 2003 -- Juvenile Arrests, 2001. Juvenile arrest rates are calculated by dividing the number of arrests of persons ages 10-17 by the number of persons ages 10-17 in the population. No racial breakdown is available.

16. Section Number: Indicator 09B

Field Name: HSIethnicity_DropOutPercent

Row Name: Percentage of high school drop-outs (grade 9 through 12)

Column Name:

Year: 2005

Field Note:

Total for all races is from Kids Count Data Book Online 2004 (www.aecf.org), Annie E. Casey Foundation. A racial breakdown is not available. Data is for 2001. Data is for ages 16-19.

17. Section Number: Indicator 10

Field Name: Metropolitan

Row Name: Living in metropolitan areas

Column Name:

Year: 2005

Field Note:

Used U.S. Census report, GCT-P15 Selected Age Groups: 2000, to determine % in type of geographic area with estimated 2002 population. GCT-P15 is for ages 0-17.

18. Section Number: Indicator 10

Field Name: Urban

Row Name: Living in urban areas

Column Name:

Year: 2005

Field Note:

Used U.S. Census report, GCT-P15 Selected Age Groups: 2000, to determine % in type of geographic area with estimated 2002 population. GCT-P15 is for ages 0-17.

19. **Section Number:** Indicator 10
Field Name: Rural
Row Name: Living in rural areas
Column Name:
Year: 2005
Field Note:
Used U.S. Census report, GCT-P15 Selected Age Groups: 2000, to determine % in type of geographic area with estimated 2002 population. GCT-P15 is for ages 0-17.
20. **Section Number:** Indicator 10
Field Name: Frontier
Row Name: Living in frontier areas
Column Name:
Year: 2005
Field Note:
Census does not give data for a definition of "frontier." Frontier was calculated by subtracting Urban and Rural populations from the estimated state population.
21. **Section Number:** Indicator 11
Field Name: S11_total
Row Name: Total Population
Column Name:
Year: 2005
Field Note:
Used current population estimates from U.S. Census, Table 1: Annual Estimates of the Population for Counties of Louisiana: April 1, 2000 to July 1, 2003 (CO-EST2003-01-22), Released April 9, 2004.
22. **Section Number:** Indicator 11
Field Name: S11_50percent
Row Name: Percent Below: 50% of poverty
Column Name:
Year: 2005
Field Note:
U.S. Census does not give a poverty status of below 50%
23. **Section Number:** Indicator 11
Field Name: S11_100percent
Row Name: 100% of poverty
Column Name:
Year: 2005
Field Note:
Source: U.S. Census Bureau, Current Population Survey, 2003 Annual Social and Economic Supplement
24. **Section Number:** Indicator 11
Field Name: S11_200percent
Row Name: 200% of poverty
Column Name:
Year: 2005
Field Note:
Source: U.S. Census Bureau, Current Population Survey, 2003 Annual Social and Economic Supplement
25. **Section Number:** Indicator 12
Field Name: S12_50percent
Row Name: Percent Below: 50% of poverty
Column Name:
Year: 2005
Field Note:
Source: Annie E. Casey Foundation, Kids Count website (www.aecf.org), Population Reference Bureau, analysis of data from U.S. Census Bureau, 2000 Census Summary File 3 (Table PCT50). This analysis is for children under 18 years of age.
26. **Section Number:** Indicator 12
Field Name: S12_100percent
Row Name: 100% of poverty
Column Name:
Year: 2005
Field Note:
Source: U.S. Census Bureau, Current Population Survey, 2003 Annual and Social Economic Supplement, POV-46: Poverty Status by State: 2002.
27. **Section Number:** Indicator 12
Field Name: S12_200percent
Row Name: 200% of poverty
Column Name:
Year: 2005
Field Note:
Source: U.S. Census Bureau, Number and Percent of Children under 19 years of Age, at or below 200 Percent of Poverty, by State: Three Year averages for 2000, 2001 and 2002.
28. **Section Number:** Indicator 09A
Field Name: HSIRace_FosterCare
Row Name: Number living in foster home care
Column Name:
Year: 2005
Field Note:
Total for all races is from the State of Louisiana, Department of Social Services, "DSS/OCS Monthly Report," March 2004, "Cumulative # of Foster Children Served" for State FY 2003. No racial breakdown is given.
29. **Section Number:** Indicator 09B
Field Name: HSIethnicity_FosterCare
Row Name: Number living in foster home care
Column Name:
Year: 2005
Field Note:
Total for all races is from the State of Louisiana, Department of Social Services, "DSS/OCS Monthly Report," March 2004, "Cumulative # of Foster Children Served" for State FY 2003. No racial breakdown is given.
